RETRO

A machine fit for a King!

Classically inspired from yesterday's elegance, the RETRO balances the striking elements of wood, chrome and lights.

From the fine detailing of the wood grain, to the etched chrome motifs, no corners were cut to echo the great designers of the past. The visual impact of the RETRO represents our passion and commitment for perfection.

Harmonized halo lighting brings a new dimension to game play – the symphony of lights dance to your touch.

With JVL's industry leading graphics and game software, the experience is truly fit for a king. The pleasure remains long after the game is over.

SPECIFICATIONS

Display
LCD TFT 17"
